The leader in accessibility solutions.

VERTICAL PLATFORM LIFTS

Sometimes called a porch lift, Access's rugged and reliable lift provides efficient access to a raised deck, porch, or even floor to floor access inside your home. An affordable solution for individuals and caregivers who need assisted access to a porch, Access's VPLs adhere to our commitment to quality while delivering another category of solutions "for your independence."

RESIDENTIAL OR COMMERCIAL

Their smaller footprint makes them a practical alternative to a ramp and more affordable than an elevator!

Strong and Durable... Convenient Access to Your Porch or Deck, or Floor to Floor Inside Your Home!

Whether you live in cold weather areas that get snow in winter, or near water where there is lots of moisture, you can be assured that our vertical platform lifts are made and installed to endure the elements over time.

COMPLETELY ENCLOSED OR OPEN AIR LIFTS

One thing you might want to consider is whether you want your Lift to be completely enclosed, protecting you from the weather, or whether you want an open pit model. Pricing for enclosed models can be more expensive, but can provide shelter from the elements during transport.

GOLD WARRANTY:

One Year Labor • One Year Parts • Two Years on all Major Components

Why Access is the right choice for you!

Excellence in Accessibility Since 1994

We are a leading ADA contractor dedicated to serving those with physical disabilities through quality construction and installation of the best quality accessibility products available.

We are Certified Accessibility Contractors Advancing Your Independence With Home and Bathroom Modifications

Our capabilities also include a broad range of accessibility modifications for home and bathroom including low threshold showers, walk in bathtubs, safety bars, wheelchair accessible kitchens and more. We are a Certified Environmental Access Consultant (C.E.A.C.) maintaining a high level of integrity in everything we do and can help make your home more accessible both inside and out.

Adapting homes, businesses and automobiles making accessibility easier for the elderly and physically challenged through construction and installation of our excellent products.
